REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Board of Directors of
Abu Dhabi Commercial Bank P.J.S.C.
Abu Dhabi, U.A.E.

Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of Abu Dhabi Commercial Bank P.J.S.C. and its subsidiaries (together referred to as "the Bank") as of June 30, 2010 and the related condensed consolidated statements of income, comprehensive income, changes in equity and cash flows for the six-month period then ended. Management is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34, "Interim Financial Reporting ("IAS 34)". Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects in accordance with IAS 34.

These condensed consolidated financial statements incorporate the financial statements of Abu Dhabi Commercial Bank P.J.S.C. and its subsidiaries, associates and joint ventures (collectively referred to as the "Bank"). The entities controlled by the Bank have been treated as subsidiaries. Control is achieved when the Bank has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of the subsidiaries are prepared for the same reporting period as that of the Bank, using consistent accounting policies. All significant inter-company balances, income and expense items are eliminated on consolidation.

Changes in the bank's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Bank.

2.4 Trading and Investment securities

Trading and investment securities are initially measured at fair value plus, in case of investment securities not at fair value through profit or loss, incremental direct transaction costs, and subsequently accounted for based on their classification.

Bank's investments are classified into the following categories depending on the nature and purpose of the investment:

- i) Trading securities which include investments at fair value through profit or loss (FVTPL)
- ii) Investment securities which include available for sale (AFS) and held-to-maturity investments (HTM)

Fair value through profit or loss (FVTPL)

Financial assets are classified as at FVTPL when the financial asset is either held for trading or it is designated as at FVTPL.

A financial asset is classified as held for trading if:

- It has been acquired principally for the purpose of selling it in the near term; or
- On initial recognition it is part of a portfolio of identified financial instruments that the Bank manages together and has a recent actual pattern of short-term profit-taking; or
- It is a derivative that is not designated and effective as a hedging instrument.

**Notes to the condensed consolidated financial statements
for the period ended June 30, 2010 (continued)****2 Summary of significant accounting policies (continued)****2.4 Trading and Investment securities (continued)****Fair value through profit or loss (FVTPL) (continued)**

A financial asset other than a financial asset held for trading may be designated as at FVTPL upon initial recognition if:

- Such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- The financial asset forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Bank's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- It forms part of a contract containing one or more embedded derivatives, and IAS 39 Financial Instruments: Recognition and Measurement permits the entire combined contract (asset or liability) to be designated as at FVTPL.

Financial assets at FVTPL are stated at fair value, with any gains or losses arising on re-measurement recognised in profit or loss.

Held-to-maturity

Investments which have fixed or determinable payments with fixed maturities which the Bank has the intention and ability to hold to maturity, are classified as held to maturity investments.

Held-to-maturity investments are initially recognized at fair value plus any directly attributable transaction costs and are subsequently measured at amortised cost using the effective interest rate method, less any impairment losses, with revenue recognized on an effective yield basis. Amortised cost is calculated by taking into account any discount or premium on acquisition using an effective interest rate method.

Any gain or loss on such investments is recognised in profit or loss when the investment is derecognised or impaired.

If there is objective evidence that an impairment on held to maturity investments carried at amortised cost has been incurred, the amount of impairment loss recognized is the difference between the assets carrying amount and the present value of estimated future cash flows, discounted at the investments original effective interest rate, with the resulting impairment loss, if any, in the profit or loss.

**Notes to the condensed consolidated financial statements
for the period ended June 30, 2010 (continued)****2 Summary of significant accounting policies (continued)****2.4 Trading and Investment securities (continued)****Held-to-maturity (continued)**

Investments classified as held to maturity and not close to their maturity, cannot ordinarily be sold or reclassified without impacting the Bank's ability to use this classification and cannot be designated as a hedged item with respect to interest rate or prepayment risk, reflecting the longer-term nature of these investments.

Available for sale

Investments not classified as either "fair value through profit or loss" or "held to maturity" are classified as "available for sale".

Available for sale investments are initially recognized at fair value plus any directly attributable transaction cost and are subsequently measured at fair value. Unquoted equity investments whose fair value cannot be measured reliably are carried at cost and tested for impairment, if any.

Gains and losses arising from changes in fair value are recognised in other comprehensive income statement and recorded in cumulative changes in fair value with the exception of impairment losses, interest calculated using the effective interest method and foreign exchange gains and losses on monetary assets, which are recognised directly in the profit or loss. Where the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously recognised in other comprehensive income statement in the cumulative changes in fair value is included in the profit or loss for the period.

Dividends on available for sale equity instruments are recognised in the profit or loss when the Bank's right to receive the dividends is established.

If available for sale investment is impaired, the difference between the acquisition cost (net of any principal repayments and amortization) and the current fair value, less any previous impairment loss recognised in the profit or loss is removed from other comprehensive income statement and recognized in the profit or loss.

**Notes to the condensed consolidated financial statements
for the period ended June 30, 2010 (continued)****2 Summary of significant accounting policies (continued)****2.4 Trading and Investment securities (continued)****Available for sale (continued)**

Once an impairment loss has been recognised on an available-for-sale financial asset, the subsequent accounting treatment for changes in the fair value of that asset differs depending on the nature of the available-for-sale financial asset concerned:

- For an available-for-sale debt security, a subsequent decline in the fair value of the instrument is recognised in the profit or loss when there is further objective evidence of impairment as a result of further decreases in the estimated future cash flows of the financial asset. Where there is no further objective evidence of impairment, the decline in the fair value of the financial asset is recognised directly in other comprehensive income statement. If the fair value of a debt security increases in a subsequent period, and the increase can be objectively related to an event occurring after the impairment loss was recognised in the profit or loss, the impairment loss is reversed through the profit or loss to the extent that the carrying value of the investment does not exceed what it would have been had the impairment not been recognised at the date of reversal of impairment.
- For an available-for-sale equity security, all subsequent increases in the fair value of the instrument are treated as a revaluation and are recognised directly in other comprehensive income statement. Impairment losses recognised on the equity security are not reversed through the profit or loss.

Reclassifications

Reclassification is only permitted in rare circumstances and where the asset is no longer held for the purpose of selling in the short term. Reclassifications are accounted for at the fair value of the financial asset at the date of reclassification.

Derecognition of investment securities

The Bank derecognizes a investment security only when the contractual rights to the cash flows from the investment expire, or when it transfers the investment and substantially all the risks and rewards of ownership of the investment to another entity. If the Bank neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Bank recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Bank retains substantially all the risks and rewards of ownership of a transferred financial asset, the Bank continues to recognize the financial asset and also recognises a collateralized borrowing for the proceeds received.

2.5 Investment properties

Investment property is property held either to earn rental income or for capital appreciation or both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Investment property is reflected at valuation based on fair value at the reporting period date. The fair values are the estimated amounts for which a property could be exchanged on the date of valuation between a willing buyer and a willing seller in an arm's length transaction. The fair value is determined on periodic basis by independent professional valuers. Fair value adjustments on investment property are included in the profit or loss in the period in which these gains or losses arise.

The investment securities include Structured Finance Assets, such as Collateralized Debt Obligations (CDOs), and Cash flow CDOs, which are dependent on the performance of collateral located outside U.A.E., primarily corporate credit assets in the U.S.A., Western Europe and Asia.

The nominal value and fair value of these securities at June 30, 2010 amounted to AED 680,708 thousand and AED 139,336 thousand respectively (December 31, 2009 - AED 933,249 thousand and AED 414,338 thousand respectively). These securities have been negatively impacted by the global financial crisis and subsequent recession that stemmed from the U.S.A. subprime situation, corporate credit events and corporate insolvencies in both the U.S.A. and Europe, as well as ongoing liquidity shortages. The continued uncertainty in long-term outlook for the global economy and increased volatility in credit default spreads also continues to negatively impact fair values. The above exposure is net of collective impairment allowance amounting to AED 477,785 thousand (December 31, 2009 - AED 404,663 thousand) against the total above exposure.

The impairment allowances have been estimated by the Banks' management based on the present market and the expected economic conditions of the underlying investments.

- (a) On May 14, 2008 the Bank acquired through its wholly owned subsidiary ADCB Holdings (Malaysia) Sdn Berhad a 25% equity stake in RHB Capital Berhad, Malaysia (“Associate”).

The cost of acquisition over the Bank’s share of the net fair value of the identifiable assets and liabilities of the associate recognised at the date of the acquisition amounting to AED 2,048,390 thousand was identified as goodwill and included in the carrying value of investment in associate. Management has assessed the total carrying value of investment in associate for impairment and determined that no impairment has occurred.

The Bank’s share of profit of associate is adjusted for amortization of tangible and intangible assets identified during goodwill assessment and also appropriately adjusted for the differences arising on conversion from Malaysian Accounting Standards to IFRS.

The equity instruments of RHB Capital Berhad are quoted in Bursa Stock Exchange, Malaysia and the quoted value of the investment at June 30, 2010 amounted to AED 3,591,440 thousand (December 31, 2009 – AED 3,061,303 thousand).

The Bank partially hedged its currency translation risk in net investment in RHB Capital Berhad through foreign exchange forward contracts and designated these contracts as hedging derivatives. The hedging instruments resulted in losses of AED 337,508 thousand (December 31, 2009 losses of AED 107,360 thousand) which have been recognised in other comprehensive income. No amounts are withdrawn from equity during the period as there was no disposal of net investment in associate.

- (b) During 2009, the Bank increased its ownership interest in Al Nokhitha Fund and obtained significant influence over the fund. This investment in associate is held by a subsidiary of the Bank – Al Nokhitha Feeder Fund.
- (c) During 2009, the Bank increased its ownership interest in ADCB MSCI U.A.E. Index Fund and obtained significant influence over the fund. This investment in associate is held by a subsidiary of the Bank – MSCI UAE Index Fund Feeder Fund.

The fair value of the Bank's investment properties has been arrived at on the basis of valuations carried out by independent valuers that are not related to the Bank. The fair value of investment properties is estimated periodically by considering recent prices for similar properties in the same location and similar conditions, with adjustments to reflect any changes in the nature, location or economic conditions since the date of the transactions that occurred at these prices. The effective date of the valuation was June 30, 2010. All the investment properties of the Bank are located within the U.A.E.

During the period, the Bank decided to utilize a unit of one of its investment property for its own use. Accordingly, AED 24,164 thousand which represents the fair value of the investment property on the date of such change in use has been transferred to property and equipment.

Tier II loan

In 2008, the U.A.E. federal government provided liquidity support in the form of new government deposits to the U.A.E.'s major commercial banks, including ADCB. Late in 2008, the U.A.E. federal government made an offer to convert these deposits into Tier II qualifying loans. In March 2009, the Bank accepted this offer to convert approximately AED 6,617,456 thousand government deposits into Tier II qualifying loans. As per this offer, the Tier II qualifying loan will mature seven years from the date of the issue and will carry interest rate payable on a quarterly basis at a fixed rate of 4 percent per annum commencing March 31, 2009 for the first two years, 4.5 percent per annum for the third year, 5 percent per annum for the fourth year and 5.25 percent per annum for the remaining period. The terms also provide that ADCB will have a call option to repay the loans partially or fully at the end of five years from the date of issue. For regulatory purposes, the loan qualifies as Tier II capital.

17 Capital notes

In February 2009, as part of the Government's strategy to respond to the global financial crisis, the Department of Finance, Government of Abu Dhabi subscribed for ADCB's Tier I regulatory capital notes with a principal amount of AED 4 billion (the "Notes"), along with such capital notes from other major commercial banks in Abu Dhabi.

The Notes are non-voting, non-cumulative perpetual securities for which there is no fixed redemption date, and are callable by the Issuer subject to certain conditions. The Notes are direct, unsecured, subordinated obligations of the Bank and rank pari passu without any preference among themselves and the rights and claims of the Note holders will be subordinated to the claims of senior creditors. The Notes bear interest at the rate of 6% per annum payable semi-annually until February 2014, and a floating interest rate of 6 month EIBOR plus 2.3% per annum thereafter. However the Bank may at its sole discretion elect not to make a coupon payment. The Note holders do not have a right to claim the coupon and an election by the Bank not to service coupon is not considered an event of default. In addition, there are certain circumstances under which the Bank is prohibited from making a coupon payment on a relevant coupon payment date ("Non-Payment Event").

If the Bank makes a non-payment election or a non-payment event occurs, then the Issuer will not (a) declare or pay any distribution or dividend or (b) redeem, purchase, cancel, reduce or otherwise acquire any of the share capital or any securities of the Issuer ranking pari passu with or junior to the Notes except securities, the term of which stipulate a mandatory redemption or conversion into equity, in each case unless or until two consecutive coupon payments have been paid in full.

Commitment for acquisition of business

On June 16, 2010, the Bank entered into a business sale agreement to acquire the retail banking business of The Royal Bank of Scotland ("RBS") in the U.A.E. for a total cash consideration equal to the net asset value of the U.A.E. RBS retail banking business ("the business") at the acquisition date plus US\$ 46 million. Since the actual acquisition is expected to be in October 2010, the total consideration to acquire the business will be determined on the Net Asset Value as on the acquisition date. This acquisition is subject to U.A.E. Central Bank approval.
