Commenting on the Bank’s performance Ala’a Eraiqat, Member of the Board and Chief Executive Officer, said:

“ADCB had a very good start to the year reporting a net profit of AED 1,103 mn for the first quarter of 2014, an increase of 22% year on year and 26% quarter on quarter. All our businesses reported a strong performance, which demonstrates the underlying strength and diversity of our franchise.

We are seeing positive signs that the economy is getting stronger and we continue to follow a corporate strategy based on measured growth and discipline. While our net loans and customer deposits remained stable over the year end, the Bank reported a significant increase in CASA customer deposits, which accounted for 46% of total customer deposits compared to 39% as at year end and 32% as at 31 March 2013. In addition, we continue to observe improvements in credit quality, reflected in significantly lower impairment charges year on year. We are very pleased with our first quarter results and remain optimistic about the future.”
Deepak Khullar, Group Chief Financial Officer, commented on the results:

“ADCB continued to deliver strong financial results in the first quarter of 2014. Operating income at AED 1,901 mn was up 9% year on year and up 8% quarter on quarter. Net interest income was up 10% year on year, primarily driven by a 33% reduction in interest expense resulting from lower EIBOR and the Bank’s conscious efforts to focus on growing stable, low cost deposits. Costs remained well controlled, growing in line with operating income and we remain comfortable with our cost to income ratio.

Excluding the one-off gain arising from retirement of hedges in the first quarter of 2013, non-interest income for the first quarter of 2014 reported an increase of 34% year on year at AED 520 mn. This was achieved by a combination of a significantly higher net fee and commission income and a higher trading income, up 33% and 39% respectively over the previous year.

Our results reflect the strength of our franchise. The Bank continues to position itself as disciplined and efficient, focusing on delivering long term sustainable value for customers and shareholders.”
