

## Key Information Document

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of this fund. You are advised to read it so you can make an informed decision about whether to invest.

### **Class I shares of ADCB SICAV - ADCB UAE Equity Fund, a sub-fund of ADCB SICAV (ISIN LU1073216084)**

Management Company: Novacap Asset Management S.A.

#### Objectives and investment policy

The objective of ADCB SICAV - ADCB UAE Equity Fund (the “Fund”) is to achieve capital growth over the medium to long-term by investing primarily in equities of the United Arab Emirates (UAE) listed on the Abu Dhabi Securities Market, Dubai Financial Market and the Nasdaq Dubai.

The Fund’s investment manager, Abu Dhabi Commercial Bank shall ensure that investments in equities which are not listed on a stock exchange in the UAE shall not exceed 30% of the Net Asset Value of the Fund.

Investments will be made in multiple sectors with appropriate weightings between each sector being at the discretion of the Fund Manager. Investments in sovereign and other public securities issued by any one sovereign entity shall not exceed 10% of the Net Asset Value of the Fund.

In addition and where appropriate the Fund may invest in other securities including:

- equities issued by companies which are listed on recognised stock exchanges in GCC or other countries;
- other transferable securities including, without limitation, notes, bonds or other similar products issued by either corporate or sovereign entities;
- units in collective investment schemes including units in schemes managed or operated by the Fund Manager (provided there is no doubling of charges as a result); and
- cash or cash equivalent.

The investor may redeem its shares in the Fund on each business day in the UAE which is followed by a Luxembourg business day.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw money within 2 years.

#### Risk and reward profile

This indicator is based on simulated historical data which may not be a reliable indication of the future risk profile of such class. The investment manager believes that this indicator reflects the higher risk of investing in companies in the UAE versus other more developed markets.

The categorisation of the class in the scale is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

The following risks might not be fully captured by the above risk indicator:

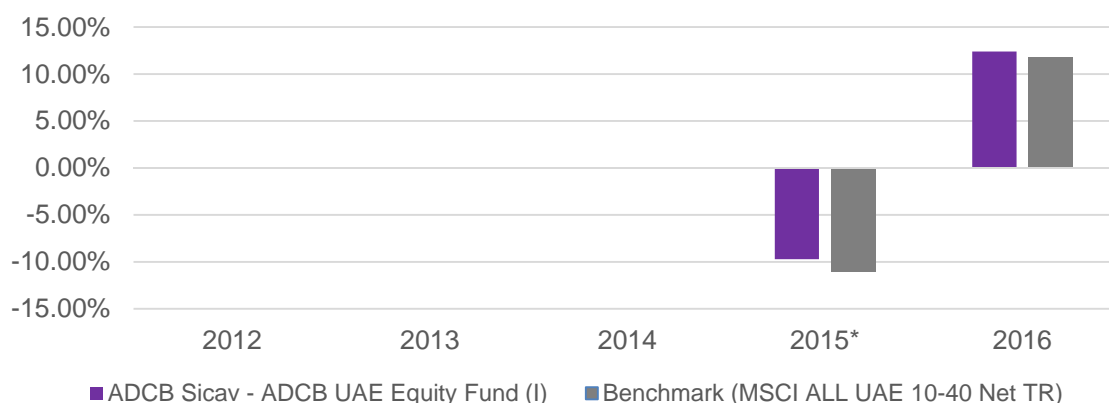

- Operational risk: political, legal and operational systems may be less developed and hence more risky in emerging markets;
- Liquidity risk: there may be a smaller number of buyers or sellers of the underlying securities and this may affect the price at which these securities can be sold;
- Counterparty risk: the Fund relies on other parties to fulfil certain investments or transactions, should these parties become insolvent, this will affect the value of the Fund.
